

THORNVILLE GARAGE CUP

The Thornville Garage Cup was presented to the section by Margaret and Terry Marshall in 1988 and was one of the first trophies to be donated to the club. This is normally played as a stroke play competition in May/June (no specific date was set by the Marshalls).

Margaret Marshall was Captain in 1994/95 having been involved with the club since its inception and Terry was Captain of the seniors section at the same time. As well as playing golf at Woodham, they also played at Hartlepool where the Thornville Garage was based that Terry and Margaret ran for many years – hence the name of the trophy.

I remember Margaret telling many tales of how people would come to the garage with various things wrong with their cars. One of the best involved a lady who had put petrol in her diesel car and could not understand that this was the reason why it wasn't running properly!

Margaret and Terry retired to Scotland, but sadly Terry died and Margaret returned to the North East and back to Woodham as a member once more.
